EDUCATION

- **BE - Electronics and Communication engineering**
  L. D. College of engineering
  2021 - 2025
  Percentage: 71.9

- **HSC**
  Karmachari shikhan tirth secondary higher schoole
  2020 - 2021
  Percentage: 80.30

EXPERIENCE

- **Coder's Clib LDCE**
  Social Media Member
  OCT ,2023 - present
  I serve as a Social Media Member at the Coder's Club, where my responsibilities include creating posts on the latest tech trends and sourcing valuable information related to industry.

HOBBIES

- Problem solving
- Exploring latest tech trends

AREA OF INTEREST

- Web development
- Front-End Development

ABOUT

As an engineering student, I consider myself a responsible and organized individual. I am eagerly anticipating my first work experience. I am passionate about web development and excited to apply my creative thinking in this field.

PROJECT

- **PointMarker**
  link: https://github.com/jaiminb2512/PointMarker
  I made this project using Next.js with the use of React Leaflet map. In this, users have four categories to choose from: hospital, cafe, petrol pump, and restaurant. As users click on a category, the map marker shows the real-time location. By clicking on the marker, users can get details of that particular location.

- **React Ecommerce**
  link: https://github.com/jaiminb2512/React-Ecommerce
  I made a fully functional eCommerce website using React.js. All the pages work very smoothly and are fully responsive. On the product page, I implemented multiple types of sorting and provided both grid and list views for users to choose from.

- **Todo List**
  link: https://github.com/jaiminb2512/Todo-List
  I made a to-do list using JavaScript as my first major project without using any framework or library to sharpen my knowledge in JavaScript.

SKILLS

- MERN Stack
- Next js
- C++
- DSA

ACHIEVEMENTS

- Completed Havrd's CS50P online course
- 300+ problem solved on Leetcode
- 58000+ score on Coding Ninjas
- 5 Star in cpp on Hackerrank
